

What people are asking about a group event cruise on StarLite

Can we make speeches or announcements?

Certainly. StarLite is a great place to hold your event, and we can help you coordinate whatever you need to have your speech or announcement come off without a hitch. Speeches or announcements on public cruises necessitate some coordination, so you'll want to make arrangements with your StarLite Planning Coordinator.

Groups requiring longer programs or seminars can be accommodated with additional time at the dock prior to, or at, the conclusion of the actual public cruise. If you choose a private charter, the ship is yours, without need to consider other guests.

How do we handle parking?

Complimentary valet parking is available in the lot for Cariibeau Jack's Restaurant. Street side parking is also available along Ballough Road. Talk to your StarLite Planning Coordinator for details.

Do my guests need Dramamine®?

Well, not because of the cruise. StarLite ships cruise on calm intracoastal waters, so "seasickness" is never really a problem.

Do we have to make arrangements for our own entertainment?

The great thing about choosing StarLite is that all you need for the perfect event is all in one spot. Each StarLite cruise ship offers its own live band, able to provide the perfect music for your group. On a public cruise, you'll have your own area for your party and the band will make sure you're recognized and special. If you choose a private cruise, the ship's live band is included in the charter package, but the ship is yours so you can choose to have whatever entertainment you wish for your event.

Do we have to pre-select an entrée?

When compared to most other banquet facilities an event on a StarLite cruise is unique in many ways. Yes, the cruise aspect makes it unique, but one feature that guests are continually amazed by is StarLite's ability to offer each guest *an individual choice of up to ten different entrées*. All food is professionally prepared fresh to order right on board and served to your table without the need to place orders ahead of the cruise. For private charters, StarLite can even custom design a menu to fit the theme of your event. The possibilities are endless.

Can we bring our own alcohol?

Unfortunately, State law prohibits StarLite from allowing you to bring your own beverages on board. But the good news is that all you need for the perfect event is right here, meaning one less thing to worry about. StarLite offers a wide range of beverage plans, so there's one sure to fit your party and your budget. Once you weigh cost and convenience, you'll find StarLite is the best choice.
